FOR IMMEDIATE RELEASE

MELLON REPORTS FIRST QUARTER CONTINUING EPS OF \$.58, up 23%
— *Fee Revenue increased 14%, Strong positive operating leverage,
Assets Under Management increased 28%, exceeding \$1 trillion* —

PITTSBURGH, April 17, 2007 — Mellon Financial Corporation (NYSE:MEL) today reported income from continuing operations of \$243 million, or 58 cents per share, in the first quarter of 2007. This compares to income from continuing operations of \$193 million, or 47 cents per share, in the first quarter of 2006, and \$298 million, or 72 cents per share, in the fourth quarter of 2006.

Results for the first quarter of 2007 included \$8 million in merger-related expenses in connection with the proposed merger with The Bank of New York Company, Inc. (BNY), and a \$12 million litigation reserve charge, together totaling approximately 3 cents per share. Results for the first quarter of 2006 included \$19 million in charges associated with amounts payable to Mellon's former chairman and chief executive officer, approximately 3 cents per share. Excluding both of these amounts, earnings per share from continuing operations in the first quarter of 2007 increased 22% compared to the first quarter of 2006.

"We were pleased with our performance during the first quarter of 2007, reflecting our focus on achieving superior growth as outlined in our 2006 goals: 13% total revenue growth combined with over 300 basis points of positive operating leverage, resulted in over 20% earnings per share growth compared to the first quarter of 2006. Our global focus continued to increase the proportion of revenue and pre-tax income generated outside the U.S. In addition, we have made significant progress in planning at all levels associated with the proposed merger with The Bank of New York. We plan to hold a special shareholder meeting to approve the merger on May 24, 2007, and continue to work towards a closing early in the third quarter," said Robert P. Kelly, chairman, president and chief executive officer of Mellon Financial Corporation.

Net income totaled \$252 million, or 60 cents per share, in the first quarter of 2007, and included a net after-tax gain of \$9 million from discontinued operations due primarily to a gain on the sale of our insurance premium financing company, AFCO, and its Canadian affiliate, CAFO. Net income totaled \$207 million, or 50 cents per share, in the first quarter of 2006, and \$237 million, or 57 cents per share, in the fourth quarter of 2006.

First Quarter Highlights of Continuing Operations (comparisons are with the first quarter of 2006, unless noted otherwise).

- **Total noninterest revenue** increased \$160 million, or 14%, and represented 91% of total revenue.
- **Assets under management** increased 28% to a record level of \$1.034 trillion at March 31, 2007. **Assets under custody or administration** increased 17% to a record level of \$4.811 trillion at March 31, 2007. Assets under management increased 4% (unannualized) and assets under custody or administration increased 7% (unannualized) compared to Dec. 31, 2006.
- **Asset and wealth management fees** increased 31% to \$609 million, a record quarterly level, and increased 2% (unannualized) sequentially. The increases reflect strong net asset flows, improved equity markets and the acquisition of Walter Scott & Partners, as well as a higher yield on average assets under management. Excluding the impact of acquisitions, asset and wealth management fees increased 22%.

- **Performance fees** totaled \$35 million compared to \$58 million in the first quarter of 2006.
- **Asset servicing fees**, including securities lending revenue, increased 12% to \$252 million. The increase reflects the impact of net new business, as well as higher earnings from the ABN AMRO Mellon and CIBC Mellon joint ventures.
- **Net interest revenue (FTE)** totaled \$129 million, an increase of 4%, or \$5 million.
- **Total revenue** amounted to \$1.405 billion (non-FTE), an increase of 13%, or \$166 million.
- **Total noninterest expense** was \$1.048 billion, an increase of 10%, or \$94 million. A slower growth rate in noninterest expense reflects actions implemented in the fourth quarter of 2006 to reduce the growth rate in compensation and non-staff expenses. The expense growth was principally in support of new business, the acquisition of Walter Scott & Partners and merit increases.
- **Pre-tax margin (FTE)** of 26% compared to 24% in the first quarter of 2006. Excluding the impact of the first quarter 2007 charges noted in the second paragraph of this release, the pre-tax (FTE) margin was 27%. Excluding the impact of the charges in the first quarter of 2006 associated with the amounts payable to Mellon's former chairman and chief executive officer, the pre-tax margin (FTE) in that period was 25%.
- The **tax rate** was 31.2% compared with 32.2% in the first quarter of 2006. It is currently anticipated that the tax rate for the second quarter of 2007 will be approximately 32.5%.
- **Return on common shareholders' equity** was 20.8% for the first quarter of 2007.
- The **tangible shareholders' equity ratio** was 5.38% at March 31, 2007 compared to 4.74% at Dec. 31, 2006.
- We **repurchased** 2.6 million shares of common stock during the first quarter and in connection with benefit plans **issued** 3.7 million shares of common stock.

Also, Mellon declared its quarterly common stock dividend of 22 cents per share. This cash dividend is payable on May 15, 2007, to shareholders of record at the close of business on April 30, 2007.

Merger Agreement with BNY

On Dec. 3, 2006, Mellon and BNY entered into an Agreement and Plan of Merger, under which Mellon and BNY will each merge with and into a newly formed corporation called The Bank of New York Mellon Corporation. It is anticipated that the merger will close early in the third quarter of 2007. Further discussion of the merger agreement is provided on page 10 of this release.

As part of the planning process for the integration of the two companies after the closing date of the proposed merger, we have realigned our business sectors, creating the new Issuer Services and Treasury Services sectors and eliminating the Payment Solutions & Investor Services (PS&IS) sector. The Issuer Services sector consists of Mellon Investor Services (stock transfer business), which was previously included in the PS&IS sector. The Treasury Services sector consists of Working Capital Solutions (global cash management) and Mellon Financial Markets (capital markets business), both previously included in the PS&IS sector, as well as Mellon Institutional Banking (large corporate banking), previously included in the Other sector. All prior periods have been reclassified. This realignment, which did not affect the operation of these business lines, did not impact Mellon Asset Management, renamed Asset Management; or Private Wealth Management, renamed Wealth Management; or the Asset Servicing sector.

In addition, several new line items have been created on the income statement and balance sheet:

Income statement:

- Securities servicing fees - Asset servicing - formerly Institutional trust and custody revenue.
- Securities servicing fees - Issuer services - formerly included in PS&IS revenue.
- Global payment services - working capital solutions revenue formerly included in PS&IS revenue.
- Foreign exchange and other trading activities - includes earnings on seed capital investments and other trading activities formerly included in Other revenue.
- Asset/investment income - includes equity investment income and other amounts formerly included in Financing-related/equity investment revenue.
- Financing-related fees - includes certain fees formerly included in PS&IS revenue.
- Software expense - formerly included in Equipment; Professional, legal and other purchased services; and Other expense.
- Sub-custodian expenses - formerly included in Professional, legal and other purchased services.
- Communications expense - formerly included telecommunication, postage and delivery expense. Now only represents telecommunication expense.

Balance sheet:

- Trading assets - Includes trading assets, as well as receivables due from counterparties with master netting agreements ("FIN 39 assets"), formerly included in Other assets.
- Federal Reserve Stock - formerly included in Investment securities. Now recorded in Other assets. Related earnings formerly included in Net interest revenue are now included in Other noninterest revenue.
- Other assets- now includes capitalized computer software formerly included in Premises and equipment.
- Other liabilities - formerly included Accrued taxes and other expenses.
- Junior subordinated deferrable interest debentures are now included in Long-term debt.
- Trading account liabilities were formerly included in Other liabilities and are now included in Short-term borrowings.

All prior periods have been reclassified. The reclassifications did not affect the results of operations.

(a) Defined as the sum of average common equity and average Tier I preferred equity.

(b) Consolidated average assets include average assets of discontinued operations of \$658 million for the first quarter of 2007, \$1.320 billion for the fourth quarter of 2006 and \$1.408 billion for the first quarter of 2006.

N/M - Not meaningful.

Nonperforming Assets

Nonperforming assets totaled \$3 million at March 31, 2007, down from \$4 million at Dec. 31, 2006 and \$16 million at March 31, 2006. The decrease compared with March 31, 2006 was due to the payment of a regional airline lease receivable.

Provision and Reserve for Credit Exposure

The provision for credit losses totaled \$3 million in the first quarter of 2007, compared with \$1 million in the first quarter of 2006 and \$5 million in the fourth quarter of 2006. The reserve for loan losses was \$52 million at March 31, 2007, \$56 million at Dec. 31, 2006 and \$60 million at March 31, 2006. The reserve for unfunded commitments was \$91 million at March 31, 2007, \$84 million at Dec. 31, 2006 and \$82 million at March 31, 2006.

Discontinued Operations

We reported a net after-tax gain of \$9 million from discontinued operations in the first quarter of 2007.

In August 2006, we announced a definitive agreement to sell our insurance premium financing company, AFCO Credit Corporation, and its Canadian affiliate, CAFO Inc. The sale closed on Jan. 2, 2007, resulting in a \$13 million after-tax gain on sale in the first quarter of 2007.

In December 2006, Mellon sold its ownership interest in the direct and indirect portfolios of Mellon Ventures, our venture capital business. A substantial portion of the sale was completed in December with subsequent closings during the first quarter of 2007. An additional \$5 million after-tax loss on the sale of this business was recorded in the first quarter of 2007, primarily resulting from an adjustment to the carrying value of a receivable recorded as part of the settlement of the transaction.

Junior Subordinated Debentures

Based on current interest rate expectations and subject to our ability to issue replacement securities prior to the proposed merger with BNY, we intend to redeem our Series A and Series B junior subordinated debentures, each issued for a face value of \$515 million, in the second quarter of 2007. The securities are redeemable at 103.86% and 103.9975% of the liquidation amounts during the 12-month periods beginning Dec. 1, 2006 and Jan. 15, 2007, respectively. We expect to replace these securities in the second quarter with a combination of Tier I qualifying capital securities and senior debt securities that would reduce our future funding costs. Redemption of both securities would result in a total pre-tax charge to income of \$46 million for the redemption premiums and write-off of unamortized issuance costs. Junior subordinated debentures are included in long-term debt on our balance sheet.

Impact of Adoption of FIN No. 48 and FSP No. 13-2

Effective Jan. 1, 2007, we adopted FASB Interpretation (FIN) No. 48, "Accounting for Uncertainty in Income Taxes" - an Interpretation of SFAS No. 109, "Accounting for Income Taxes." Also, in conjunction with the adoption of FIN 48, we adopted FASB Staff Position (FSP) 13-2, "Accounting for a Change or Projected Change in the Timing of Cash Flows Relating to Income Taxes Generated by a Leveraged Lease Transaction." The combined impact of adopting FIN 48 and FSP 13-2 was a \$6 million direct reduction to the beginning balance of our retained earnings, reported as a change in accounting principle.

Merger Agreement with BNY

On Dec. 3, 2006, Mellon and BNY entered into an Agreement and Plan of Merger (the "Merger Agreement"), pursuant to which Mellon and BNY will each merge with and into a newly formed corporation called The Bank of New York Mellon Corporation. The parties amended and restated the Merger Agreement on Feb. 23, 2007 and again on March 30, 2007. The boards of directors of both companies have unanimously approved the Merger Agreement and have adopted a resolution recommending the adoption of the Merger Agreement by its respective shareholders. Each party has agreed to put these matters before their respective shareholders for consideration. Subject to satisfaction of various conditions of closing, the merger is currently expected to close early in the third quarter of 2007.

Mellon and BNY filed a joint proxy statement/prospectus with the SEC regarding the proposed merger in late February and filed amendments to the joint proxy statement/prospectus with the SEC in April. Mellon and BNY each anticipate holding separate special shareholder meetings on May 24, 2007 to approve the merger. April 12, 2007 is the record date for shareholders entitled to vote at the special shareholders meeting.

All narrative comparisons in this Quarterly Earnings Summary are with the first quarter of 2006 and all information is reported on a continuing operations basis, unless otherwise noted. See page 2 for a discussion of revisions to Business Sectors and Income Statement / Balance Sheet line items.

Throughout this Quarterly Earnings Summary, certain measures, which are noted, exclude certain items. We believe these measures are useful to the investment community in analyzing the financial results and trends of ongoing operations. We believe they facilitate comparisons with prior periods and reflect the principal basis on which our management monitors financial performance.

REVISIONS TO BUSINESS SECTORS AND INCOME STATEMENT / BALANCE SHEET LINE ITEMS

As part of the planning process for the integration of Mellon and The Bank of New York after the closing of the proposed merger, during the first quarter of 2007:

- We realigned our business sectors creating the new Issuer Services and Treasury Services sectors and eliminating the Payment Solutions & Investor Services (PS&IS) sector. The Issuer Services sector consists of Mellon Investor Services (stock transfer business), which was previously included in the PS&IS sector. The Treasury Services sector consists of Working Capital Solutions (global cash management) and Mellon Financial Markets (capital markets business), both previously included in the PS&IS sector, as well as Mellon Institutional Banking (large corporate banking), which was previously included in the Other sector. All prior periods have been reclassified for these changes. In addition, we renamed the Mellon Asset Management sector to Asset Management and the Private Wealth Management sector to Wealth Management. There were no changes to the Asset Servicing sector. These changes did not affect the operation of these business lines.

In addition, several new line items have been created on the income statement and balance sheet:

Income statement:

- Securities servicing fees - Asset servicing - formerly Institutional trust and custody revenue.
- Securities servicing fees - Issuer services - formerly included in PS&IS revenue.
- Global payment services - working capital solutions revenue formerly included in PS&IS revenue.
- Foreign exchange and other trading activities - includes earnings on seed capital investments and other trading activities formerly included in Other revenue.
- Asset/investment income - includes equity investment income and other amounts formerly included in Financing-related/equity investment revenue.
- Financing-related fees - includes certain fees formerly included in PS&IS revenue.
- Software expense - formerly included in Equipment; Professional, legal and other purchased services; and Other expense.
- Sub-custodian expenses - formerly included in Professional, legal and other purchased services.
- Communications expense - formerly included telecommunication, postage and delivery expense. Now only represents telecommunication expense.

Balance sheet:

- Trading assets - Includes trading assets, as well as receivables due from counterparties with master netting agreements ("FIN 39 assets"), formerly included in Other assets.
- Federal Reserve Stock - formerly included in Investment securities. Now recorded in Other assets. Related earnings formerly included in Net interest revenue are now included in Other noninterest revenue.
- Other assets- now includes capitalized computer software formerly included in Premises and equipment.
- Other liabilities - formerly included Accrued taxes and other expenses.
- Junior subordinated deferrable interest debentures are now included in Long-term debt.
- Trading account liabilities were formerly included in Other liabilities and are now included in Short-term borrowings.

All prior periods have been reclassified. The reclassifications did not affect the results of operations.

CAUTIONARY STATEMENT

A number of statements (i) in this Quarterly Earnings Summary, (ii) in our presentations and (iii) in the responses to your questions are “forward-looking statements.” These statements, which may be expressed in a variety of ways, including the use of future or present tense language, relate to, among other things, the Corporation’s future financial goals, including future revenue, expenses and earnings, seasonality factors, the use of excess capital, new business wins, lower levels of incentives associated with performance fees; pipelines for new business in Asset Management, Asset Servicing and Issuer Services; statements with respect to the proposed merger with The Bank of New York, including the expected date for the special meeting to vote on the merger and the expected closing date of the merger with The Bank of New York, expectations with respect to operations after the merger; the expected tax provisioning rate for the second quarter of 2007; and intentions with respect to junior subordinated debentures and expected reduced funding costs, as well as the Corporation’s overall plans, strategies, goals, objectives, expectations, estimates and intentions, and are based on assumptions that involve risks and uncertainties and that are subject to change based on various important factors (some of which are beyond the Corporation’s control). Actual results may differ materially from those expressed or implied as a result of these risks and uncertainties, including, but not limited to, the businesses of the Corporation and The Bank of New York may not be integrated successfully or the integration may be more difficult, time-consuming or costly than expected; the combined company may not realize, to the extent or at the time we expect, revenue synergies and cost savings from the transaction; revenues following the transaction may be lower than expected as a result of losses of customers or other reasons; deposit attrition, operating costs, customer loss and business disruption following the transaction, including, without limitation, difficulties in maintaining relationships with employees, may be greater than expected; governmental or shareholder approvals of the transaction may not be obtained on the proposed terms or expected timeframe or at all; changes in political and economic conditions; changes in the relevant benchmark to measure changes in investment management fees; equity, fixed-income and foreign exchange market fluctuations; changes in the mix of assets under management; changes in the mix of deposits; the effects of the adoption of new accounting standards; corporate and personal customers’ bankruptcies; operational risk; inflation; levels of tax-free income; technological change; success in the timely development of new products and services; competitive product and pricing pressures within the Corporation’s markets; consumer spending and savings habits; interest rate fluctuations; geographic sources of income; monetary fluctuations; acquisitions and integrations of acquired businesses; changes in law; changes in fiscal, monetary, regulatory, trade and tax policies and laws; success in gaining regulatory approvals when required; the effects of terrorist acts and the results of the war on terrorism; as well as other risks and uncertainties detailed from time to time in the filings of the Corporation with the SEC. Such forward-looking statements speak only as of April 17, 2007, and the Corporation undertakes no obligation to update any forward-looking statement to reflect events or circumstances after that date or to reflect the occurrence of unanticipated events.

Note: Several new line items have been created on the income statement. See page 2. Prior periods have been restated.

KEY POINTS

- Asset and wealth management fees were up a strong 31%, driven by improved equity markets and net asset flows, the acquisition of Walter Scott & Partners, and a higher yield on average assets under management; excluding the impact of acquisitions, asset and wealth management fees increased by 22%
- Performance fees decreased \$23 million reflecting a lower level of out-performance relative to 1Q06 and a relative shift towards hedge fund products with fourth quarter performance fees
- Distribution and servicing fees increased 26%, reflecting higher sales volumes and higher market values of mutual funds by Mellon Global Investments, our international distributor
- Securities servicing fees increased 12% primarily due to:
 - Asset servicing increased 12%, due primarily to net new business and a 76% increase in net equity earnings from the ABN AMRO Mellon and CIBC Mellon joint ventures, partially offset by a decline in securities lending revenue
 - Issuer services increased 9%, primarily reflecting higher fees from corporate actions related to M&A activity
- Global payment services declined 5% due primarily to the loss (in 2006) of the U.S. Government passport processing business
- Foreign exchange and other trading activities decreased 15% primarily due to lower market volatility in most currencies partially offset by higher client volumes

(a) Prior periods calculated on a continuing operations basis even though the balance sheet, in accordance with GAAP, is not restated for discontinued operations.

(b) Excludes FIN 39 assets as these assets are noninterest-earning.

(c) Excludes adjustments for fair value required by SFAS No. 115.

bp - basis points.

KEY POINTS

- Net interest revenue (FTE) increased \$5 million, or 4%, compared with 1Q06, reflecting the higher level of interest earning assets, partially offset by the financing costs associated with the Walter Scott & Partners acquisition. Net interest revenue increased \$16 million, or 14% (unannualized), compared with 4Q06 reflecting a higher level of noninterest-bearing deposits and a higher level of interest-earning assets
- The net interest margin decreased 14 bps compared with 1Q06, reflecting the lower proportion of noninterest-bearing deposits combined with the financing costs associated with Walter Scott & Partners acquisition
- Please refer to pages 4 and 5 of the Appendix for a 9-quarter trend of average balances and interest yields/rates

(a) 4Q06 includes pre-tax expenses of: severance \$26 million; impairment charges related to DPM and HBV \$16 million; merger-related expenses \$11 million; and additional occupancy reserves \$6 million. 1Q07 includes \$8 million of merger-related expenses and a \$12 million charge for litigation.

(b) Stock option expense totaled \$11 million in the 1Q06, including \$3 million for Mellon's former chairman and chief executive officer, pursuant to his employment agreement, \$9 million in the 2Q06, \$8 million in both the 3Q06 and 4Q06, and \$7 million in the 1Q07.

(c) 1Q06 includes a \$19 million pre-tax charge in connection with payments, awards and benefits for Mellon's former chairman and chief executive officer, pursuant to his employment agreement. Excluding this charge, staff expense as a percentage of total revenue (FTE) was 40% in 1Q06.

Note: Several new line items have been created on the income statement. See page 2. Prior periods have been restated.

KEY POINTS

- Strong expense management resulting in 340 bps of positive operating leverage
 - Total revenue +13.3%
 - Total noninterest expense +9.9%
- Total staff expense increased 5% due to; new business, annual merit increase (effective July 1, 2006) and the Walter Scott & Partners acquisition
- Distribution and servicing increased 24% due to an increased level of mutual fund sales activity outside of the U.S.
- Higher professional, legal and other purchased services, business development, furniture and equipment and sub-custodian expense in support of new business generation and strategic initiatives, as well as the Walter Scott & Partners acquisition, partially offset by declines in net occupancy, communications and software expense
- Other - 1Q07 includes a \$12 million litigation reserve charge

N/M - Not meaningful.

Note: 4Q06 includes \$6 million of severance expense as well as \$5 million of impairment charges related to the sale of HBV Alternative Investment Strategies.

KEY POINTS

- Generated 200 bps of positive operating leverage
- 35% of the total revenue non-U.S. vs. 25% in 1Q06
- Asset and wealth management fees increased 36% vs. 1Q06, reflecting improved equity markets, net asset flows, the Walter Scott & Partners acquisition, as well as a higher yield on average assets under management, driven by an increase in mutual fund assets and higher yielding institutional products
- Long-term asset flows were negative \$4 billion in 1Q07 principally reflecting the loss of low yielding products (averaging under 10 bps) partially offset by our focus on alpha-generating institutional products
- Short-term asset flows were positive \$6 billion in 1Q07 reflecting the interest rate environment
- Performance fees decreased \$23 million reflecting a lower level of out-performance relative to 1Q06 and a relative shift towards hedge fund products with fourth quarter performance fees
- Distribution and service fees increased 26%, reflecting higher sales volumes and higher market values of mutual funds by Mellon Global Investments, our international distributor
- Pipeline for new business extremely strong going into 2Q07
- Mellon Global Investments opened an office in Seoul, South Korea (January 2007)

Note: 4Q06 includes \$1 million of severance expense.

KEY POINTS

- Total noninterest revenue increased 8%, driven by improved equity markets, new business and acquisitions; annualized new business revenue is up 43% from 1Q06
- Total client assets increased 12%, to a record level of \$99 billion, including a record level of \$60 billion in managed assets; increases were driven by improved equity markets and new business
- Net interest revenue increased 2% due to higher loan and deposit levels; volume increases were partially offset by deposit spread compression
- Negative operating leverage resulted from the expense impact of growth initiatives including the impact of additional sales representatives, new office locations as well as increased marketing and technology expenses
 - 1Q07 opened new office location in Connecticut, wealth offices now total 69
- 2006 Client Survey
 - 93% - exceptional client satisfaction
 - 93% - willing to refer Wealth Management

(a) Total joint venture revenue includes the activity of CIBC Mellon and ABN AMRO Mellon. Included in noninterest revenue is Mellon's portion of the earnings of the joint ventures, which are accounted for under the equity method of accounting. Assets under custody or administration for CIBC Mellon totaled \$682 billion, \$695 billion, \$737 billion, \$748 billion and \$771 billion. Assets under custody or administration of ABN AMRO Mellon totaled \$586 billion, \$640 billion, \$696 billion, \$773 billion and \$913 billion.

(b) Represents the investment of securities lending cash collateral managed by the Asset Servicing sector.

Note: 4Q06 includes \$11 million of impairment charges related to DPM Mellon and \$6 million of severance expense.

KEY POINTS

- Generated 100 bps of positive operating leverage
- 32% of 1Q07 total revenue non-U.S., compared to 28% 1Q06
- Total revenue increased 9% reflecting:
 - A 13% increase in asset servicing fees, driven by improved market conditions, net new business, a 76% increase in net equity earnings from the ABN AMRO Mellon and CIBC Mellon joint ventures; partially offset by lower securities lending revenue due to lower spreads partially offset by a higher level of securities on loan
 - A 12% decrease in foreign exchange and other trading activities, due to lower volatility in most currencies partially offset by higher client volumes
 - A 23% increase in net interest revenue due to increased deposit levels and spreads
- Noninterest expense increased 8%, reflecting higher staff expense in support of business growth, increased joint venture pass-through payments, increased sub-custodian expense related to higher asset levels and other growth initiatives
- Assets under custody or administration increased to a record level of \$4.769 trillion, including net new conversions of \$240 billion in 1Q07
- New business wins totaled \$126 billion in 1Q07
- Pipeline for new business extremely strong going into 2Q07
- 2007 R&M Custody Survey - #1 rated custodian among the peer group of large custodians for the sixth consecutive year (released March 2007)

Note: 4Q06 includes \$4 million of severance expense.

KEY POINTS

- Generated 700 bps of positive operating leverage
- Total noninterest revenue increased 9% primarily reflecting higher fees from corporate actions related to M&A activity
- Net interest revenue increased 33% due primarily to a 16% increase in average deposit levels
- Noninterest expense increased 9% in support of revenue growth
- Pipeline for M&A related corporate actions remains strong

Note: 4Q06 includes \$1 million of severance expense.

KEY POINTS

- Noninterest revenue increased \$3 million due to higher other fee revenue
- Net interest revenue increased \$2 million primarily resulting from higher deposit levels at Working Capital Solutions
- Noninterest expense increased \$6 million primarily in support of business growth
- Working Capital Solutions - Maintains customer satisfaction leadership position in wholesale lockbox (2006 Phoenix-Hecht survey)

OTHER SECTOR (primarily includes business exits activity and Corporate Treasury activities)

<i>(in millions, presented on an FTE basis)</i>	2006				2007
	1st Qtr	2nd Qtr	3rd Qtr	4th Qtr	1st Qtr

Noninterest expense	81	58	54	102	56
Income (loss) before taxes (FTE)	\$(37)	\$(30)	\$(23)	\$(81)	\$(32)

KEY POINTS

- Total revenue declined \$18 million resulting from the 1Q06 gain on the sale of the large corporate real estate loan portfolio, and lower revenue in 2007 due to the expiration of the transitional services agreement with ACS
- Noninterest expense declined \$25 million, principally due, after excluding the \$19 million in 1Q06 and \$20 million in 1Q07 charges noted on page 5, footnote (a), to lower under absorbed overhead in the Other sector due to growth in the business sectors

INCOME TAXES

The effective tax rate for the first quarter of 2007 was 31.2%, compared with 32.2% in the first quarter of 2006. It is currently anticipated that the tax rate for the second quarter of 2007 will be approximately 32.5%.

DISCONTINUED OPERATIONS

We reported a net after-tax gain of \$9 million from discontinued operations in the first quarter of 2007.

In August 2006, we announced a definitive agreement to sell our insurance premium financing company, AFCO Credit Corporation, and its Canadian affiliate, CAFO Inc. The sale closed on Jan. 2, 2007, resulting in a \$13 million after-tax gain on sale in the first quarter of 2007.

In December 2006, Mellon sold its ownership interest in the direct and indirect portfolios of Mellon Ventures, our venture capital business. A substantial portion of the sale was completed in December with subsequent closings during the first quarter of 2007. An additional \$5 million after-tax loss on the sale of this business was recorded in the first quarter of 2007, primarily resulting from an adjustment to the carrying value of a receivable recorded as part of the settlement of the transaction.

JUNIOR SUBORDINATED DEBENTURES

Based on current interest rate expectations and subject to our ability to issue replacement securities prior to the proposed merger with BNY, we intend to redeem our Series A and Series B junior subordinated debentures, each issued for a face value of \$515 million, in the second quarter of 2007. The securities are redeemable at 103.86% and 103.9975% of the liquidation amounts during the 12-month periods beginning Dec. 1, 2006 and Jan. 15, 2007, respectively. We expect to replace these securities in the second quarter with a combination of Tier I qualifying capital securities and senior debt securities that would reduce our future funding costs. Redemption of both securities would result in a total pre-tax charge to income of \$46 million for the redemption premiums and write-off of unamortized issuance costs. Junior subordinated debentures are included in long-term debt on our balance sheet.

IMPACT OF ADOPTION OF FIN NO. 48 AND FSP NO. 13-2

Effective Jan. 1, 2007, we adopted FASB Interpretation (FIN) No. 48, "Accounting for Uncertainty in Income Taxes" - an Interpretation of SFAS No. 109, "Accounting for Income Taxes." Also, in conjunction with the adoption of FIN 48, we adopted FASB Staff Position (FSP) 13-2, "Accounting for a Change or Projected Change in the Timing of Cash Flows Relating to Income Taxes Generated by a Leveraged Lease Transaction." The combined impact of adopting FIN 48 and FSP 13-2 was a \$6 million direct reduction to the beginning balance of our retained earnings, reported as a change in accounting principle.

MERGER AGREEMENT WITH BNY

On Dec. 3, 2006, Mellon and BNY entered into an Agreement and Plan of Merger (the "Merger Agreement"), pursuant to which Mellon and BNY will each merge with and into a newly formed corporation called The Bank of New York Mellon Corporation. The parties amended and restated the Merger Agreement on Feb. 23, 2007 and again on March 30, 2007. The boards of directors of both companies have unanimously approved the Merger Agreement and have adopted a resolution recommending the adoption of the Merger Agreement by its respective shareholders. Each party has agreed to put these matters before their respective shareholders for consideration. Subject to satisfaction of various conditions of closing, the merger is currently expected to close early in the third quarter of 2007.

Mellon and BNY filed a joint proxy statement/prospectus with the SEC regarding the proposed merger in late February and filed amendments to the joint proxy statement/prospectus with the SEC in April. Mellon and BNY each anticipate holding separate special shareholder meetings on May 24, 2007 to approve the merger. April 12, 2007 is the record date for shareholders entitled to vote at the special shareholders meeting.

MELLON FINANCIAL CORPORATION

Notes to Financial Trends

Notes:

On Dec. 3, 2006, Mellon Financial Corporation ("Mellon") and The Bank of New York ("BNY") entered into an Agreement and Plan of Merger, under which Mellon and BNY will each merge with and into a newly formed corporation called The Bank of New York Mellon Corporation.

As part of the planning process for the integration of Mellon and The Bank of New York after the closing of the proposed merger, during the first quarter of 2007:

We realigned our business sectors creating the new Issuer Services and Treasury Services sectors and eliminating the Payment Solutions & Investor Services (PS&IS) sector. The Issuer Services sector consists of Mellon Investor Services (stock transfer business), which was previously included in the PS&IS sector. The Treasury Services sector consists of Working Capital Solutions (global cash management) and Mellon Financial Markets (capital markets business), both previously included in the PS&IS sector, as well as Mellon Institutional Banking (large corporate banking), which was previously included in the Other sector. All prior periods have been reclassified for these changes. In addition, we renamed the Mellon Asset Management sector to Asset Management, and the Private Wealth Management sector, to Wealth Management. There were no changes to the Asset Servicing sector. These changes did not affect the operation of these lines of business.

In addition, several new line items have been created on the income statement and balance sheet as described on Page 2 of Mellon's Quarterly Earnings Summary dated April 17, 2007. All prior periods have been reclassified.

Summations may not equal due to rounding. As a result of this rounding convention, there may exist immaterial differences between the sector trends data versus the sector trends data subsequently filed on Form 10-Q.

Discontinued Operations Accounting -

The income/(loss) and average assets from discontinued operations accounting have not been allocated to any sector.

Average Assets -

Where average deposits in a business sector are greater than average loans, average assets include an allocation of investment securities equal to the difference. Consolidated average assets include average assets of discontinued operations.

Return on Common Equity/Pretax Operating Margin -

Ratios are presented on a continuing operations basis. Quarterly return on common equity ratios are annualized.

(a) The first quarter of 2005 includes a pre-tax gain of \$197 million from the sale of our remaining investment in Shinsei Bank, a \$10 million pre-tax charge (included in other expense) for the early extinguishment of debt and \$5 million of additional expense (\$2 million of occupancy expense and \$3 million of other expenses) related to charges recorded in 2004 for the move to the new Mellon Financial Centre in London and the writedown of a small business.

(b) The first quarter of 2006 includes a \$19 million pre-tax charge in connection with payments, awards and benefits payable to Mellon's former chairman and chief executive officer, pursuant to his employment agreement.

(c) Includes \$7 million in severance, \$11 million in merger-related expenses and \$6 million in occupancy expenses as well as \$74 million of tax benefits primarily related to a reversal of deferred tax liabilities due to management's decision to indefinitely reinvest earnings of certain foreign subsidiaries in accordance with APB opinion No. 23.

(d) Includes \$8 million in merger-related expenses and a \$12 million litigation reserve charge.

(e) Primarily relates to employees in Technology, Finance and Human Resources supporting the business sectors; the cost of these employees are fully allocated to the business sectors.
