

Shareholder Services

Stock Split

Making Stock Ownership More Affordable

Successful companies authorize a stock split to make ownership more affordable to a broader base of investors, without changing shareholder equity at the time of the split.

Mellon Investor Services has the experience and resources to assist your company through all phases of a stock split.

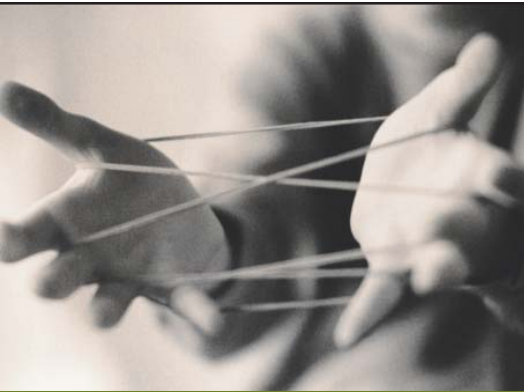

Based on years of experience, Mellon Investor Services' Stock Split Service can not only help control costs associated with the stock split, but our services can also simplify the transaction process. We can meet your special needs, whether or not we are your transfer agent.

Our experienced staff coordinates and executes the stock split, from start to finish. You and your shareholders can track the entire process through Internet applications and an interactive voice response system. These electronic services, plus an exceptional communication center team, enable easy access to shareholder information.

Under the DRS/Profile System, an Issuer or its Transfer Agent is permitted to issue full and fractional book-entry shares. Outstanding shareholder positions are electronically recorded in the same way certificate shares are registered. By using our DRS/Profile capabilities, expenses related to overall stock issuance are minimized.

Key Benefits

- *Experience* ~ Our Stock Split Services are performed by an expert team of professionals with extensive experience in the stock split process.
- *Cost Savings* ~ Mellon Investor Services' electronic DRS/Profile capabilities can assist you in saving on stock issuance expenses and simplify transaction processing.
- *Technical Expertise* ~ We have the systems and resources to handle any size or type of transaction. Our time-tested procedures and technical expertise help reduce errors and increase efficiency.
- *Single-Source Solution* ~ Mellon Investor Services has the people, products and procedures to execute the entire stock split process plus the flexibility to accommodate special situations.
