

BNY Mellon Asset Management North America Corporation Appoints Chief Technology Officer

Hiring of Experienced IT Architect Jed Maczuba—Formerly of MFS Investment Management and Accenture—Continues Strategic Build Out of Talent

BOSTON, MA, April 30, 2018 – BNY Mellon Asset Management North America Corporation, the firm created by the merger of Mellon Capital, Standish and The Boston Company, today welcomes Jed Maczuba as the new Chief Technology Officer. This appointment follows several other recent announcements about senior hires.

Maczuba is an experienced IT professional with proven success leading broad technology innovation while maintaining a robust architecture, strong data governance and a reliable infrastructure. He most recently served as Director of Enterprise Architecture at MFS Investment Management. In that role, he led the firm’s technology strategy to support corporate goals and address key industry trends. Importantly, Maczuba has experience integrating, as well as reconfiguring, legacy custom applications and growing cloud-enabled solutions.

Prior to joining MFS, Maczuba was a Senior Manager in Accenture’s Strategy and Transformation Practice where he designed and implemented enterprise architecture programs for large, complex financial services IT organizations. He also assessed capabilities and developed executable plans to address technology and operational gaps. Maczuba was also an Executive IT Architect for IBM Global Services with a focus on the financial services industry. Maczuba earned his BS in Physics from Boston College and his MBA from MIT Sloan School of Management.

“We are thrilled to hire someone of Jed’s caliber. Jed is joining the organization at a time when we are focused on investing in technological innovation and the digital transformation of our multi-asset solutions business,” says Linda Lillard, Chief Operating Officer. “We believe integrating best-in-class solutions with our own competitive investment management tools will deliver better results for our clients. A robust architecture and reliable data are the key foundations of our technology platform. I believe Jed’s demonstrated expertise in data governance and enterprise architecture will help us continue our innovation journey.”

“After spending my career assessing and developing integrated IT architectures, I am pleased to join the firm at such a formative stage,” says Maczuba. “I look forward to expanding the technology available to our investment teams and creating new client-facing technology solutions.”

About BNY Mellon Investment Management

BNY Mellon Investment Management is one of the world’s leading investment management organizations and one of the top U.S. wealth managers, with \$1.9 trillion in assets under management as of March 31, 2018. About BNY Mellon Asset Management North America Corporation

BNY Mellon Asset Management North America Corporation is a leading provider of high-quality single- and multi-asset investment solutions using both active and passive strategies for investors globally. With the three legacy boutiques totaling \$558.8 billion in assets under management as of March 31, 2018, it serves a wide variety of institutional and intermediary clients in over 40 markets globally. The firm's active equity strategies leverage the capabilities developed by The Boston Company; its active fixed income strategies employ the deep fundamentals-based experience of Standish, and its index, multi-asset/multi-factor strategies incorporate Mellon Capital's advanced systematic processes. Mellon Capital, Standish and The Boston Company will continue to market existing products under the existing brands until the launch of a new unified brand later in the year.
